M600 Series

A4 MFP with A3 Solution

# M600 Series

## A4 All-in-one B&W MFP

**The A4 MFP is the Rational Choice**  
for replacing the A3 MFP

99% of office documents are composed of A4 sized paper. However, you may need more than just an A4 MFP for the 1% of documents that use different sized paper. Meet the most rational choice for the office solution with Sindoh's M600 Series.

**2nd Global Design Series**  
with Sindoh's Advanced Technology

The 2nd Global Design Series was developed by applying Sindoh's Advanced Technology to the 1st Global Design Series for more convenient, faster performance.

A4 MFP with A3 Solution  
M600 Series

**World's Unique  
A3 Solution and Compact Design**

### A3 Solution

Automatic color scan of A3 documents, A3 fax transmission, and copying of A3 documents into A4 size using the A4 MFP, which is the world's most unique automatic document feeding system that enables the digitizing and copying of A3 images.

### All-in-One Space Utilization

The compact dimensions of 418 x 391 x 515mm and simple appearance minimize the space of the work environment and create a more refined atmosphere of A3 images.

**Sensible Design  
to Enhance the Value of Space**

### Modern Design of Refined Sensibility

Collaboration with Tangerine (UK), which is renowned as one of the world's best product design companies, led to the creation of this sensible and refined design that will enhance the style of your office.

### User-Centered Output Tunnel Tray

The output tunnel tray offers balance and simplicity with its elegant design.

**Unique GUI (M612) Created with Sindoh's Technology**

### Sindoh's Unique GUI

Sindoh's unique GUI system offers intuitive and user-friendly operation, and the capacitive two-finger system makes it more convenient to use. (5 inch color touch screen)

### More Convenient Features

The built-in web browser makes web surfing easy, and the web page print function can print web pages via LCD operation without requiring the use of a PC.

**High-End Features Design  
that Highlight Convenience**

### Default High Resolution and WiFi

Enhanced 1,200 dpi high resolution and WiFi support S/W update via the web service

### Mobile Printing

Air-Print provides printing from an Apple device, while the Sindoh print app supports printing from an Android device.

### High-Speed Printing and Copying

The high-speed output of 40 PPM (M611) and 47 PPM (M612) can print or copy a large volume of the document quickly and at a high resolution.

### High Performance Hardware

The Quad Core Processor provides the quick and user-friendly interface, while the higher capacity memory (M611 - 512MB, M612 - 1GB) boosts the performance. The 1 Giga Ethernet support can process large volume documents quickly.

### Up to 1,550 Sheets of Paper Capacity and a 250 Sheets Output Tray

The product features a 500-sheet paper feeder and a 50 sheet MPT as its default and an optional 1,550-sheet paper feeder is also available. The 250-sheet output tray provides for a sufficient output stack.

### GUI Screens of M612
